OSHA'S Vaccine Mandate

OSHA's Emergency Temporary Standard presents one of the biggest compliance challenges for employers since the onset of the Covid-19 pandemic. Businesses must enact, implement and enforce new protocols mandating vaccines for employees or implement weekly testing protocols. Employers must also comply with strenuous record keeping requirements while balancing what has become a highly divisive issue in the workplace.

HLS's Employment Practice Group is ready to discuss: (1) The ETS's policy and record keeping requirements and the tough decisions employers must make; (2) the pitfalls and trouble spots that employers should be aware of and seek to avoid; and (3) how and why employers should already be preparing for compliance.

Exclusive online event for HLS Clients Only

Join Megan and Michael from our Employment Practice Group for an informal roundtable discussion of OSHA's vaccine mandate
